A Message from OLLI Member
President Frank Alarcon

I want to thank the over 400 of you who responded to our recent online program survey, and to ALL of you who filled out the fall class evaluation forms. Your responses, comments and other feedback are enormously important and help us to maintain one of the best lifelong-learning programs in the country.

One of the aspects of our program we are most proud of is the tremendous variety and range of topics we try to cover each semester. I think you will find that the class offerings for this spring will not disappoint you in meeting that objective. For example:

- Our over a dozen history and social science-related classes range from local to international subjects.
- Music, art and film classes include both classical and contemporary styles.
- Our ever-growing science offerings cover the molecular to the global arenas.
- Literature, language and writing classes range from appreciation to personal application.
- Technology-related opportunities range from allowing us to improve our ability to use various devices to better understanding the world of drones.

Throw in a few health, dance and cooking classes and what more could anyone want?

Please also make sure to check out the list of activities, field trips and club meetings. I’m sure there’s something there for everyone, but if you see something missing, let us know!

Finally, I’d like to make a strong pitch to each of you to stay connected throughout the year. Whether it be through our website, Facebook, e-newsletters or a new vehicle discussed elsewhere in this catalog, stay informed, and share YOUR news with other OLLI members.

Classes begin and end on various dates. Most classes begin the week of February 19 and are held for six-weeks unless otherwise noted. Please see details in this catalog.

Classes will not be held during FSU Spring Break March 12 - 16.
Monday starts 2/19 - Suggested reading, mobility and skill requirements are online.

OLLI membership is open to all area residents. There are no education prerequisites. The organization is committed to reflecting the community and supports diversity of race, ethnicity, religion, gender and ability. For more information on OLLI membership and class enrollment, see olli.fsu.edu or call 850.644.3520.

The film shows the interviews between the participants in the event, and then follows them afterwards as they grapple with sometimes complex emotions that come from deciding to cultivate new relationships with others during later life. Upland Ecology of the Florida Panhandle

Bruce Means, President and Executive Director of the Coastal Plains Institute and Land Conservancy and Courtesy Professor, Dept. of Biological Science, FSU 2 - 4 p.m., PC BA $30

We begin our journey starting from the highest, driest ridgetops and then proceed down steep slopes to include the southern mixed hardwood forest (beech/magnolia forest). Going seaward we enter the gently inclined slopes of flatwoods and end up in coastal strand and barrier island dry soil habitats. Rodney Anderson, Professor Emeritus of History, FSU 2 - 4 p.m., WO, Maguire Center $55

How is it that an era that survivors remembered fondly as the “Golden Age” ended in the death of millions of soldiers in WWI, and even more millions of civilians in WWII? The conventional wisdom is that political failures led to WWI, and that WWI’s vindictive peace set the stage for WWII. There is a certain amount of truth to those explanations, but the reality is more complicated. Both conflicts had their origins in complex, worldwide political, economic and social transformations. This “new normal” created winners and losers, the latter fighting back by reverting to centuries-old, ethnic-racial hatreds, or nationalist populism and, in Europe and the New World, new labor and class-based movements. This course will examine how technology transformed warfare and follow the events that led to WWI. We will analyze the Russian Revolution and the rise of European fascism, particularly the Nazis in Germany. What role did Western appeasement play in Hitler’s decision to go to war? And why 1939 and not the 1940s, as the German military would have preferred? Class size limit: 50.

From Muir’s Sierra Club to Carson's Silent Spring: A History of the U.S. Environmental Movement
Jesse Klein, Ph.D., Social Sciences Research and Data Librarian, FSU Libraries
2 - 4 p.m., PC BA
$55
Early environmental debates focused on whether to preserve nature in its own right or conserve nature for human use--a debate heightened by increased urbanization and westward expansion. In 1962, however, Rachel Carson’s vivid descriptions of modern environmental destruction, with rivers choked with dying fish and birds silenced by an overabundance of pesticides and chemicals, startled many Americans. Her words in Silent Spring created a change in attitude that would alter environmentalist efforts forever. The U.S. environmental protection effort has a rich history that paralleled many social movements that swept the nation during the 20th century and laid the foundation for our contemporary debates about the environment. In this course, we will explore the sociohistorical context of the U.S. environmental movement beginning in the late 19th century and throughout the 20th century. Class size limit: 110.

Ideology and Disaster and How They Mold Each Other PART II
Riad Matkaloon, Adjunct Professor
2 - 4 p.m., PC 233
$55
The course surveys various examples of disaster across history, beginning with the Fall of Rome (476 A.D.) and proceeding through the Middle Ages to contemporary times. It examines the causes and effects of ideology and disasters and how they mold and affect each other; how they transfer influences; and how each one shapes or induces the other. The course considers whether this process, between ideology and disaster, transforms human thoughts from the realm of idealism or isolated thinking to the realm of factual reality and, perhaps, to progress. The ultimate question is, “Do we learn from our disasters?” Class size limit: 20.

Two Tell-Tale Hearts: The Poetic Genius of Frederic Francois Chopin and Edgar Allan Poe
Ruth Akers, Adjunct Professor of Musicology, FSU
2 - 4 p.m., WO, Maguire Center
$55
This class will draw analogies between the literary writings of Poe and the musical compositions of Chopin. Both writers, haunted Romantics who lived at exactly the same time in history (1809-1849), are known for their poetic expressions of melancholy, despair, suffering and foreboding. The American Poe barely made a living as an editor and literary critic, and the circumstances surrounding his death at age 40 were mysterious. In Paris, Chopin’s friend and colleague Franz Liszt said that the self-exiled Chopin, who had tuberculosis, was “dying all his life.” Remember Poe’s horror story about a heart beating under the floor? Chopin requested that his heart be excised and buried in his native Poland (after he died, of course!). As we explore readings of Poe and listen to the piano compositions of Chopin, the question may be asked, as Chopin sometimes did after a piano recital, “Have I made it haunting enough?” Class size limit: 40.

Ancient Worlds: Florida/Southeastern Pre-Contact Archaeology

This course will cover the archaeology of the Native American cultures of Florida and the greater Southeast from the time of the Paleolithic through the cultures existing in this area at the time of European contact. Class size limit: 50.

The Mad Hatter’s Tea Party
Robert Watkins, Mathematics Professor, Keiser University
2 - 4 p.m., KU
$60
Join us for a lively discussion of topics tangentially related to Lewis Carroll’s “Alice’s Adventures in Wonderland.” It will be a truly mad, Mad, MAD Tea Party: with sense and nonsense, meaning and word games, self-reference and “An After Dinner Speech on After Dinner Speaking,” all served on fine china, with flatware, linens and table decorations. Enjoy six afternoons of tinkling tea cups and texts on treacle tears, big bangs, gestalt numbers, genetic epistemology and homemade butters and jams, clotted creams and curds, fruit conserves, and the nature and history of mathematics. Quaff logic and set theory. Devour dainty little finger sandwiches. Partake of pastries and post-modernism, tarts, sub-atomic particles and other exquisite delicacies. Engage in uncountable conversations with Prof. Paradox “At the Limits of Socially Acceptable Intercourse with Three Sisters” (which has been known to lead to infinite regresses, strange loops, and identity disorders). Class size limit: 18.

Executive Clemency (and felony disenfranchisement) in Florida
3-Week Class meets 2/22, 3/8, 3/22
Mark Schlakman, Senior Program Director for the Center for the Advancement of Human Rights, FSU
9 - 11 a.m., PC 214
$45
Observe the governor and members of the Florida Cabinet in action as Florida’s Board of Executive Clemency during a quarterly meeting at the Capitol. This mini-course provides unique insight into Florida’s largely confidential executive clemency process involving pardons, commutations of sentences, restoration of civil rights for people who have completed sentences for felony convictions (including eligibility to vote, serve on a jury and hold public office) and other forms of clemency (like restoration of firearm authority, which is handled separately). Efforts to change the state’s constitution, given concerns about Florida’s high rate of felony disenfranchisement even after completion of sentence, will be addressed. This mini-course is structured around three classes – an orientation, a field trip to the Capitol followed by a debrief, for a total of eight hours overall. Class size limit: 36.

We’ll start by watching a documentary about America’s sweetheart, Mary Pickford, who co-created the United Artists movie studio and helped to establish the Motion Picture Academy. Next is Penny Marshall’s now classic, A League of Their Own, and finally the ‘teen girl’ movie that broke box office records and became a phenomenon, Twilight – in which the author, the screenwriter, the director, the producer, the creative executive, and the production executive (your instructor), were all women. Learn which founding forefather invented the first “American” instrument interesting enough to catch the interest of Mozart. Military music and patriotic songs reveal the hearts and minds of young soldiers in service and the people who support them. OLLII TIMES
NEWS AND INFORMATION FROM THE MEMBERS AND STAFF TO THE MEMBERSHIP

OLLII at FSU will launch a new member publication in January.

“The OLLII Times will contain information primarily from the members for the members’ benefit,” according to OLLII Executive Director Debra Herman.

“If you would like to write articles for publication; if you would like to communicate information to others but are reluctant to use social media; if you want to inform others about matters of general interest to the members, here is your opportunity,” she said.

It is hoped that the OLLII Times will become a source that complements the Spring 2018 Catalog and the weekly E-News during the regular OLLII semester by serving as an additional resource for sharing news and information relevant to our membership.

“There, it’s up to you.” exclaimed George and Harriet Waas. They will serve as co-editors. Send them whatever information you would like to share with your fellow members about clubs, activities, birthdays, congratulations, sickness, announcements, etc. “We will do the rest,” they added.

The OLLII Times will be available only on the OLLII webpage at olli.fsu.edu.

George and Harriet Waas’ email address is waas01@comcast.net.

THE LIFE OF BILLY YANK

“The Life of Billy Yank,” presented by Civil War historian and emeritus professor Dr. Jim Jones, will examine the life of the private Union Army soldier in the Civil War. Participants will look at the experiences and attitudes of these volunteer soldiers from great battles such as Gettysburg through the long days between battles during the world’s first modern war. You’re invited to join Dr. Jones as he shares Civil War stories and letters on Wednesday, January 31, 2-3:30 p.m., at the Leroy Collins Leon County Public Library. This lecture is FREE and no registration is required.

Where Can I Park for OLLI Classes?

If you are taking a Spring 2018 OLLI class Monday through Thursday during the hours of 9 a.m.- 4:30 p.m. on the FSU Campus, you may wish to purchase a pass for $35 (supplemented by OLLI) that will allow you to park in the Macomb/Call Street Garage located at the corner of Macomb and Call Streets. To purchase, please go to www.olli.fsu.edu and sign into your account. Proceed to the Course Catalog page, just like you are adding a membership or class, and you will find the category “Parking Pass” listed under the heading “Bits and Pieces.” After you purchase your pass, you will receive an email confirmation that must be printed out and placed on your dashboard on the driver’s side. Upon arrival, enter through the Macomb Street entrance and look for the garage attendants as they will direct you where to park. The pass also permits free valet service in front of the Pepper Center. Walking directions from the garage to the Pepper Center: From the Call Street level, walk west past the Fine Arts Building, cross Copeland Street, and you’ll find the Claude Pepper Center in that block on the right. Total travel to the Pepper Center is two blocks. How to use the Valet Service: The parking pass you purchase will also serve as your Valet Pass. Pull inside the circle drive at the Pepper Center on Call St. and leave your car and keys with one of the attendants. They will give you a ticket to redeem your car when you are ready to leave. (You MUST have your pass visible on the dashboard to use the garage and valet service!) Please do not block the street or block traffic. Valet attendants will be available 30 minutes before each class.

Students taking classes at Allegro Senior Living Community can park free at the strip center across the street.

All other class locations have free parking directly at their site or you will be notified by OLLI staff or the instructor on where you can park.

Florida State University’s Great Give - Here’s a Great Chance to Support the OLLI Scholarship!

In the spring of 2017, OLLI at FSU participated in the FSU Great Give campaign for the first time. The Great Give is an online giving campaign in support of academic programs, scholarships and student activities. This is the perfect opportunity for OLLI members to fund the three scholarships that we offer to FSU students every year. Scholarships are competitive and are awarded to students who are studying in any of the successful longevity programs.

It’s easy! For 36 hours, from 9:00 a.m. March 22 until 9:00 p.m. March 23, OLLI members can go online and make a gift. In 2017, OLLI at FSU exceeded our goal and came close to fully funding all three scholarships. We have challenged ourselves with a goal of $3,000 — let’s see if we can go over the top again this year!

The Great Give projects will be featured on FSU’s crowdfunding site, sparkFSU.

SO SAVE THE DATE!! Mark your calendars for March 22 and 23, 2018, and plan to join us in supporting the OLLI at FSU scholarships.

Meanwhile, continue to visit the OLLI at FSU website and click on the Support OLLI tab to make your contribution to OLLI’s sustainability fund. BECOME AN OLLI CHAMPION! For more information, contact Nancy O’Farrell at nancyofarrell047@gmail.com or Winnie Schmeling at winnieschmeling@embarqmail.com.
